details were received from Telsiai, Lithmania. According to this report, the Soviets had rebuilt and placed partly underground an unstated number of former Germen military warehouses.* Beyond the Venta River, about seven kilometers north of Mageikiai (56-18M, 22-21E), a large number of military werehouses and an airfield were constructed. In this development there were five groups of underground buildings. The airfield had four concrete runways. This development, or military base, was being guarded by a detachment of soldiers from the Mageikiai garrison. 3.			CLASSIFICATION SHORMA	25X1
